

# CS-GY 6083-B Software Installation Guide

## NotePad++

This is an installation guide to install NotePad++, which is a text editor for PHP on windows. You can also use any other editor as you wish.

Start:

Download Notepad++ (for Windows) – This is the text editor for PHP on Windows <https://notepad-plus-plus.org/downloads/v7.8.4/>

A screenshot of the Notepad++ website. The left sidebar contains the Notepad++ logo (a green frog) and a list of links: Home, Download, News, Online Help, Resources, RSS, Donate, and Author. The main content area shows a list of download links: Installer | GPG Signature, zip package | GPG Signature, 7z package | GPG Signature, and minimalist 7z | GPG Signature. Below this is a section for "Download 64-bit x64" with similar links. At the bottom, there is a section for "Download source code" and a link to "Download Notepad++ source code of current version and".

Current Version 7.8.4
